Subject: Markups_may.xlsx

Please find markup changes. William may call with some minor adjustments, but for now this should be close to the money. I added effex to the sheet, and also kept columns with previous settings so we can track how things are changing.

Key changes include, removing spread advantage in Citi on the recent pairs owned by DR. Moving DR from spread disadvantage to same as other banks (and monitor if there changes worked before giving them back advantage), giving Effex .2 advantage on less liquid pairs, and .1 on liquid pairs in return for maximum spread logic we are implementing later this week.

We gave GSAGG and .1 advantage on Usdjpy, and backed off Effex's advantage on the offer for Eur\Usd versus Goldman, to try to get them some more volume.

Thanks,
John
